BOOK REVIEW: "PEONY" by Pearl S. Buck.

At various times in history colonies of Jews have gone to China and lived there. The city of K'aifeng, in the province of Honan, was a center for them. In China, they have never been persecuted, and if they have suffered hardships, these were only the hardships of life in the community where they were. In it's basis, therefore, this novel may be said to be historically true, although the characters, with unimportant exceptions, are the creatures of the author's imagination. The story takes place at the period, about a century ago, when the Chinese had accepted the Jews, and when, indeed, most Jews had come to think of themselves as Chinese. Today even the memory of their origin is gone. They are Chinese.

In this, the latest of Pearl Buck's books to hit the bookstands--the little Chinese maid, Peony, is in love with the son in a high-born Jewish family, in which she is raised as bondmaiden. Peony knows that if David marries one of his own Jewish blood, he is lost to her forever--even though his father had a Chinese mother. So Peony engineers a romance between David and the high-born daughter of a Chinese merchant--knowing full well that she cannot have him herself--because of her servant status. But as the husband of another Chinese girl---and one who is "beautiful but dumb"--Peony can be sure of her position in David's family for all her life. She knows that David has come to rely upon her for most of the decisions in his life, and that he will continue to do so---if he is not put under the "thumb" of an equally intelligent Jewish girl.

How Peony goes about her scheming, and if she succeeds---you will have to find out by reading "PEONY" by PEARL S. BUCK.

In the foothills of the Himalayas, among the Khonds of North India, one hears this prayer: "OH LORD, WE KNOW WHAT IS GOOD FOR US. THOU KNOWS. FOR IT, WE PRAY."

"PRAYING AND HOEING"

Said farmer Jones, in a whining tone--
To his good old neighbor Gray;
"I've worn my knees nigh thru to the bone,
But it ain't no use to pray.

Your corn looks twice as good as mine,
Though you don't pretend to be
A shinin' light in Church, to shine
And tell Salvations's free.

I've prayed the Lord a thousand times
Fer to make that there corn grow;
And why you'n beats it so, an'
Climbs, I'd like to know!"

Said farmer Gray to his neighbor Jones,
In his quiet and easy way--
"When prayers get mixed with lazy bones,
They don't make farming pay.

Your weeds, I see, are good and tall,
In spite of all your prayers--
You may pray for corn 'till the Heavens fal
If you don't dig up the tares.

I mix my prayers with a little toil,
Along in every row--
And I work this mixture into the soil,
Quite vigorous, with a hoe.

And you'll discover, if you'll begin
As sure as you are born--
That this mixture, well worked in--
Makes mighty decent corn.

So, while I'm prayin', I use my hoe
And do my level best--
To keep the weeds down along each row,
And the Lord--He does the rest.

It's well to pray, both night and morn,
As every farmer knows--
But the place to pray for thrifty corn,
Is right between the rows.

You must use your hands while prayin', tho'
If an answer you would get;
For prayer-worn knees and a rusty hoe
Never raised a big crop yet!

So I believe, my good old friend--
If you mean to win the day--
From plantin' clean thru harvest time,
YOU MUST HOE--AS WELL AS PRAY!"

PLATFORM OF THE CALIFORNIA CONGRESS OF PARENTS AND TEACHERS:
(continued from last week)--

WE WILL ENCOURAGE young people to regard the field of public service as one which requires ability, integrity, and a sincere desire to serve, and we will urge qualified youth to prepare for and accept their responsibilities in this field as planners for the public good.

BY ALL THESE MEANS we will cultivate in ourselves, and our children, those attitudes that lead to understanding, and which will promote peaceful settlement of differences and ease the tensions between individuals, groups, cultures, and nations.

WE WILL NOT NEGLECT the other fields of activity important to the welfare of children, but we believe this program will focus our efforts and attention upon those values which are the theme of the Mid-Century White House Conference, and which each of us truly desires as the heritage for children.

THE FOLLOWING LETTER WAS PUBLISHED IN THE SAN FRANCISCO NEWS IN THE "LETTERS TO THE EDITOR" DEPARTMENT--IN THE AUGUST 3rd ISSUE:

"Away from the hullabaloo, the bustle and traffic problems of a great city, lies the little town of BRISBANE in San Mateo County, alongside the Bayshore Highway. Beautifully situated upon a green hillside, and quite picturesque with its bungalows and suburban dwellings, it reminds one of a miniature dream city.

At its entrance lies a lagoon--stagnant, covered with slime, dirty and offensive--the stench from which is nauseating. This disgraceful condition has existed for years and years. Where is the civic pride of its citizenry? The fungus growth produces sickness such as malaria, and breeds mosquitoes.

No attempt has ever been made to fill up this stagnant pool with rocks and earth of which there is plenty from its hills. It could be transformed into a beautiful park, about which could be built stores and homes from which this town could derive thousands of dollars from the taxes created. Wake up, Brisbane--and be progressive!

--signed, WILLIAM K. GUTZKOW

Well, Mr. Gutzkow---we thank you for your kind words about our little dream city. But we feel a little hurt that you did not investigate further, and find out for yourself that the "pool" did not belong to Brisbane---not until recently. Now it belongs to the Brisbane School District, and we have hopes that something will be done about it. So far as putting stores and so forth down there we're not so sure about that. Wouldn't that take away from our kids the little bit of playground that they now possess? We are trying awfully hard to be "progressive", but we don't want to go overboard about it. Too much progressiveness can make a "dream city" into a nightmare of traffic noises, hustle, and bustle---and the other things that go with too much progress. We are getting things done, slowly but surely--but we're not in too much of a hurry to make a thriving metropolis out of our HOME TOWN----we'd sort of like to be able to put our feet up on the table for a little while longer, anyway!

LETTERS TO THE EDITOR DEPT.:

"Dear Mrs. Reece: In regards your recent article about forming a teen-age club here in Brisbane--this is what we have done, so far; Our first meeting was held on Tuesday evening, August 8th. We elected the following officers--as president, Bob Fogleman. As vice-president, Don Johnson. As Secretary, Judy Woodard, and as Treasurer, Walter Purtell.

We selected different committees for the dances, and for decorating, and so forth.

We held our first dance on Friday, August 11th, which was very successful. There were approximately 65 teen-agers attending.

We agree that a "teen-ager" is one who is between the ages of 15 and 21 years of age, and we fixed it as such.

More teen-age dances will be held every other Friday night--at the Recreatinnal center.

--respectfully yours,
JUDY WOODARD, SECRETARY.

OPEN LETTER TO THE EDITOR, BRIS. BYLINE:

Dear Mrs. Reece: A number of times you, and many others, have expressed the desire to help the younger members of the community in their efforts to put on dances, and other forms of entertainment.

I think the time has now come for me to put in my "two-cents" worth.

In 1945 and 1946 I was fortunate enough to belong to the "HI-SPOT" in San Jose. The membership of this group was composed of, and limited to, teen-age high school students.

The group was formed during the war years when the students had nothing to do; the juvenile delinquency rate of the city of San Jose was at an all-time high, and the blame for the many delinquency crimes were being placed indiscriminately among the younger set. The teen-agers were disgusted at having the blame for one person's actions placed against the entire group. They did something about it, and the "HI-SPOT" was formed. The members have earned the respect of the older people; and San Jose is now very proud of their juvenile delinquency rating--one of the lowest in the nation for a city it's size and population.

The leading students of the four high schools in San Jose banded together and formed a "youth government"--that is, they drafted a constitution and a set of by-laws, with duly elected officers.

In their activities they were, and are, sponsored by the Y.W.C.A. and various service clubs of San Jose. The Y.W.C.A. furnishes space, heat, light, and water.

This group of teen-agers pride themselves on the fact that they have never begged a prize or donation from anyone or any group since they started. However, the service groups did donate the first six months to help them get started.

Some time ago I got in contact with the leading members and advisors of the "HI-SPOT", with the idea of starting a similar organization here in Brisbane. In that exchange of letters, and the conferences held, they explained all the obstacles they had faced and overcome; and the results obtained through their combined efforts. Many of the problems they encountered are on a similar basis with those existing in Brisbane.

The "HI-SPOT" Governing Council and the Adult Advisory Board assured me of their full cooperation whenever I asked their assistence. They were also kind enough to provide me with a full draft of their constitution and by-laws, and a possible "plan of organization and possible activities".

I shall be very happy to meet with any interested parties, and discuss the formation and activities of this proposed youth group.

Thanking you for your cooperation, Mrs. Reece, I remain

Very Sincerely Yours,

THANK YOU FOR YOUR NICE LETTER, DAVE. AND AS FOR YOU TEEN-AGERS, I SHALL BE VERY DISAPPOINTED IN YOU IF YOU DO NOT GET IN TOUCH WITH THIS YOUNG MAN AND LET HIM HELP YOU IN FORMING THE RIGHT KIND OF A TEEN-AGE CLUB. MY ADVISE IS THIS: ASK MR. WITH TO ATTEND YOUR NEXT MEETING AND EXPLAIN HIS SET OF BY-LAWS TO YOU. I HAVE READ THEM, AND I FIND THEM GOOD! IF YOU DESIRE THE RESPECT OF THIS COMMUNITY, YOU MUST DO EVERY THING IN YOUR POWER TO EARN IT!--Gladys Reece

WHAT TO DO IF AN A-BOMB FALLS

Following is an article reprinted in part from the BURLINGAME ADVANCE--by FRANK CAREY, ASSOCIATED PRESS REPORTER. We think the article is not only a timely one--but a necessary one. This is the first article we have seen which comes right out and tells the individual what to do, when the time comes. Now--all we have to do is to REMEMBER these things--and that won't be easy!

WASHINGTON, Aug. 14 (AP)--FIVE YEARS AFTER THE EXPLOSION OF THE FIRST ATOMIC BOMB, THE GOVERNMENT HAS COME OUT WITH SOME SPECIFIC INSTRUCTIONS ON WHAT TO DO IF ONE HITS YOUR CITY. THEY ARE CONTAINED IN A BIG BOOK, "THE EFFECTS OF ATOMIC WEAPONS" RELEASED OVER THE WEEKEND BY THE ATOMIC ENERGY COMMISSION. HERE ARE SOME TIPS YOU MIGHT DO WELL TO MEMORIZE:

THE FIRST THING TO REMEMBER IS THAT IF A BOMB GOES OFF, THERE WILL BE A SUDDEN INCREASE IN THE GENERAL ILLUMINATION. THE BURST WILL BE ABOUT 100 TIMES AS BRIGHT AS THE SUN. DON'T WORRY ABOUT RECOGNIZING IT. ONE AEC OFFICIAL, IN DISCUSSING AN ATOMIC EXPLOSION, TOLD REPORTERS: "IF YOU ARE NOT DEAD ALREADY, YOU WILL RECOGNIZE IT WHEN IT HAS GONE OFF."

BUT DON'T FOLLOW YOUR NATURAL INSTINCTS TO LOOK TOWARD THE SOURCE OF THE LIGHT. GO INTO ACTION RIGHT AWAY, AS FOLLOWS:

IF YOURRE CAUGHT OUT IN THE OPEN, WITH NO SHELTER OF ANY KIND WITHIN A STEP OR TWO, DROP INSTANTLY TO THE GROUND, AND CURL UP SO AS TO SHADE YOUR BARE ARMS, HANDS, NECK AND FACE. AND HOLD THAT POSITION FOR AT LEAST TEN SECONDS. AFTER TEN SECONDS YOU CAN STAND UP, BECAUSE THE IMMEDIATE PERIL FROM HEAT AND ATOMIC RAYS WILL HAVE PASSED IN THAT TIME. BUT KEEP YOUR BODY PRESSED TIGHTLY AGAINST THE SIDE OF A BUILDING TO AVOID BROKEN GLASS OR FALLING DEBRIS, WHICH CAN RESULT FROM THE EXPLOSION'S BLAST EFFECTS. IF YOU ARE INSIDE A HOUSE OR BUILDING, DROP TO THE FLOOR, WITH YOUR BACK TO THE WINDOWS, CRAWL BEHIND OR BENEATH A TABLE, DESK, COUNTER, OR OTHER SHELTER. THE CLOSER YOU ARE TO THE INTERIOR PARTITIONS OF THE BUILDING, THE BETTER OFF YOU ARE.

MEDICAL EXPERTS DECLARED THAT PEOPLE WHO SURVIVE THE INITIAL BLAST AND ITS IMMEDIATE EFFECTS HAVE A GOOD CHANCE OF RECOVERY, EVEN THOUGH INJURED. THE MEASURES ARE STANDARD PRACTICES UTILIZED FOR THE TREATMENT OF BURNS AND OTHER INJURIES.

HERE ARE THE HIGHLIGHTS:

1. IF YOU THINK THAT RADIOACTIVE DIRT OR OTHER PARTICLES HAVE BEEN DEPOSITED ON YOUR SKIN, RUB VIGOROUSLY WITH SOAP AND WATER. IN A DIRE EMERGENCY, SUCH THINGS AS PAPER, STRAW, GRASS, LEAVES OR SAND WILL REMOVE RADIOACTIVE SUBSTANCES FROM THE SKIN IF APPLIED WITH VIGOR. ANY MATERIALS USED MUST LATER BE DESTROYED, SUCH AS BY BURIAL--BECAUSE THEY WILL BE RADIOACTIVE. (IN AN AREA HEAVILY CONTAMINATED BY RADIOACTIVITY, PEOPLE WOULD HAVE TO LEAVE UNTIL THE RADIATIONS HAD SUBSIDED TO A SAFE LEVEL. HOWEVER, THEY MIGHT ALSO COME AND GO FOR PERIODS LIMITED SO AS NOT TO GET AN OVER DOSE OF RADIATION.)

2.--IF PAVED STREETS ARE CONTAMINATED, FLUSHING WITH WATER MIGHT BE THE FIRST STEPS.

3.--CONTAMINATED SOIL ON PARKS AND LAWNS MIGHT BE DEALT WITH BY TURNING THE SOIL OVER.

4.--PROPERLY COVERED FOODS, SUCH AS CANNED GOODS, SHOULD UNDERGO LITTLE OR NO CONTAMINATION. BUT THERE SHOULD BE NO SALVAGING OF UNPROTECTED FOODS.

5.--OUTRIGHT DISTILLATION OF WATER SHOULD MAKE IT FIT TO DRINK. MERE BOILING OF WATER IS OF NO VALUE.

6.--PLASTIC PAINTS AND OTHER EASY TO REMOVE COVERINGS OFFER MEANS OF PROTECTING SURFACES FROM CONTAMINATION. THE MATERIALS REMOVED WOULD HAVE TO BE DISPOSED OF.

Well, there you have it. If you are interested in reading up on this matter you might try to get a copy of the book, "THE EFFECTS OF ATOMIC WEAPONS". But the FIRST thing to remember is----DROP TO THE GROUND OR THE FLOOR, AND COVER THE EXPOSED PARTS OF THE BODY BY CURLING UP! AND DON'T LOOK AT THE SOURCE OF THE FLASH--BLINDNESS COULD RESULT.

MINSTREL SHOW NEWS:

Last Monday evenings rehearsal at the schoolhouse came equipped with entertainment for the members of the glee club and guests. BILL BALDWIN, a member of the glee club, showed the assembled groups some of his mystifying magic tricks--and in my estimation, they were as good, if not better than any feats of magic I had ever seen professionally. It seemed good, also--to see Art Kennedy back in the bass section. Complete with crutches! Art told me he fell three feet through a floor, onto a solid foundation. He landed flat on his foot-bone, thereby cracking the ankle bone. And guess what the glee club practiced most last Monday?--That's right--DRY BONES!--you know, "The foot-bone connected to the ankle bone"--etc.!
